

RE/MAX® AGENT TECH

The RE/MAX tech suite offers agents a comprehensive assortment of digital business-building tools and assets.

FIRST®

First is a mobile app that helps agents find business within their personal network. The app automatically ranks your contacts based on how likely they are to sell, then helps keep your outreach on track with friendly coaching prompts, performance feedback and organizational tools.

RE/MAX REAL ESTATE SEARCH (U.S.) APP

An excellent property search tool for consumers—and a lead generation platform for you. The RE/MAX App can be branded with your photo, name and contact information. Your clients will have the option to contact you through the app as they search, save listings, and even share their favorite properties with their friends.

BOOJ CRM

Focus on deals instead of databases with integrated contact and lead management. Send text messages, email and review your client's home search activity within the platform. Turbocharge your day with integrated task lists, seamless transaction management (think Dotloop® and DocuSign®) and track everything in your pipeline with the visual deal manager.

BOOJ WEBSITES

Every agent, office and team receives a personally branded, customizable website. As with any modern website, your individual site is mobile friendly, feature rich, searchable, shareable and easy to use. Potential buyers can explore MLS listings with an interactive map, new sellers can create property valuations, and all leads are available for follow-up in the booj CRM—all at no additional cost to you or your brokerage. Everybody wins!

MEGAPHONE BY RE/MAX

Designed to amplify your business, Megaphone makes online advertising easy. Promote your brand or your listings across the web while enjoying concise reports, competitive rates and automated integration with booj and other technology partners.

RE/MAX MARKETPLACE

RE/MAX Marketplace is a one-stop shop for relevant RE/MAX products and our curated network of carefully vetted Approved Suppliers. The online store makes it easy to take advantage of negotiated discounts as you shop for relevant software, services and supplies needed to grow your business.
